DETAILED QUESTION REVIEW

QUESTION 1 SKIPPED

According to SEBI's riskometer, which colour band is fallen into by a scheme with beta 1.3 and standard deviation 18%?

A. Green

B. Orange [CORRECT ANSWER]

C. Yellow

D. Red

You did not attempt this question.

CONCEPT EXPLANATION

Beta >1.2 and >15% correspond to the High (orange) band as described.

QUESTION 2 SKIPPED

Rohit wants to invest the entire Rs 2,00,000 in a single equity fund that outperformed its benchmark by 5% last quarter. Which bias is exhibited, and what first step should be taken by a distributor to mitigate it?

A. Confirmation bias; Provide balanced fund comparisons

B. Overconfidence bias; Diagnose the bias [CORRECT ANSWER]

C. Herding behaviour; Reinforce disciplined processes

D. Anchoring bias; Educate with data

You did not attempt this question.

CONCEPT EXPLANATION

Rohit's reliance on short-term outperformance shows overconfidence, and the distributor's three-step framework begins with diagnosing the bias.

QUESTION 3

SKIPPED

In the memory aid SIRL used for quick elimination, what is represented by the "L" in the second position?

A. Low return

B. Low risk [CORRECT ANSWER]

C. Long-term horizon

D. Liquidity

You did not attempt this question.

CONCEPT EXPLANATION

SIRL stands for Savings: Low risk, Low return, High liquidity, Short-term horizon; the second "L" is Low risk.

QUESTION 4

INCORRECT

Which asset class is identified as including both REITs and gold ETFs?

A. Real Estate & Commodities [CORRECT ANSWER]

B. Alternative [YOUR ANSWER]

C. Money-Market

D. Equity

CONCEPT EXPLANATION

The material lists REITs and gold ETFs under the Real Estate & Commodities asset class.

QUESTION 5

SKIPPED

Which savings instrument is identified as providing tax-exempt interest under Section 80C?

A. Savings-bank account

B. Debt Mutual Fund

C. Fixed Deposit

D. Public Provident Fund (PPF) [CORRECT ANSWER]

You did not attempt this question.

CONCEPT EXPLANATION

PPF interest is tax-exempt as stated in the tax implications section.

QUESTION 6

SKIPPED

What minimum percentage of a mutual fund's assets is required by SEBI to be invested in securities (equity or debt)?

A. 60%

B. 55%

C. 50%

D. 65% [CORRECT ANSWER]

You did not attempt this question.

CONCEPT EXPLANATION

SEBI mandates at least 65% of a mutual fund's assets to be in securities (equity or debt).

QUESTION 7

INCORRECT

An investor wants a portfolio with an expected return of 10% per annum, containing debt (8% return) at a weight of 30% and money-market instruments (5% return) at a weight of 20%. What weight is required to be allocated to equities (12% return) to achieve the target?

A. 50%

B. 45% [YOUR ANSWER]

C. 60%

D. 55% [CORRECT ANSWER]

CONCEPT EXPLANATION

Let w be equity weight. $0.30 \times 8 + 0.20 \times 5 + w \times 12 = 10$ $2.4 + 1 + 12w = 10$ $12w = 6.6$ $w = 0.55$ or 55%.

QUESTION 8

SKIPPED

Which behavioural bias is associated with investors who overestimate their market-prediction ability,

leading to excessive trading and higher expense ratios?

A. Loss aversion

B. Herding behaviour

C. Anchoring bias

D. Overconfidence bias [CORRECT ANSWER]

You did not attempt this question.

CONCEPT EXPLANATION

The material states that overconfidence bias leads investors to over-trade and incur higher expense ratios.

QUESTION 9 SKIPPED

Rohit, who is 35 and can tolerate a 15% loss in a bad year while preferring growth, is best matched to which fund type?

A. Equity-large-cap fund [CORRECT ANSWER]

B. Debt-oriented fund

C. Balanced fund

D. Money market fund

You did not attempt this question.

CONCEPT EXPLANATION

His tolerance aligns with a fund having 12-15% and beta1.0; the material recommends an equity-large-cap fund for such moderate-to-high risk investors.

QUESTION 10 SKIPPED

Which mutual fund category is found to be most appropriate for a long-term financial goal according to the material?

A. Hybrid fund

B. Liquid fund

C. Equity-oriented scheme [CORRECT ANSWER]

D. Ultra-short-duration debt fund

You did not attempt this question.

CONCEPT EXPLANATION

Long-term goals (>7 yr) are matched with equity-heavy schemes such as large-cap, mid-cap or ELSS funds.
